

# Down with the Devil

Lordi

I'm going down with the devil  
That's what I've been told forever  
For all the things that I love lead to hell

Here I go down with the devil  
So far it's the best journey ever  
I've been told I'm sick but I'm feeling pretty well

They say the devil dressed me  
They hear him speak when I speak  
They say I'm lost and damned  
But I know damn well just where I am

(4x)  
Do I go down?  
Down with the devil?  
Down with the devil I go

There's hell to pay said the devil  
But I'm a real go getter  
I'm sure that I'll find a soul I can sell

They say the devil dressed me  
They hear him speak when I speak  
They say I'm lost and damned  
But I know damn well just where I am

(4x)  
Do I go down?  
Down with the devil?  
Down with the devil I go

They say the devil dressed me  
They hear him speak when I speak  
They say I'm lost and damned  
But I know damn well just where I am

(4x)  
Do I go down?  
Down with the devil?  
Down with the devil I go
