

# Ghost Train

Lordi

Welcome to the ride where you'll never come back  
Says the conductor in black  
Horns on his head and his skin bloody red  
Locked in your seat on the railway to death

Wheels turning, tracks burning  
Screams of pain on the ghost train  
Dark nightmare, stuck in there  
Ride the pain on the ghost train

Ride the pain on the ghost train

The spectres jump out from around the bends  
The map says the track never ends  
Horror and fright and the shrieks fill the night  
Locked in your seat on the railway to death

Wheels turning, tracks burning  
Screams of pain on the ghost train  
Dark nightmare, stuck in there  
Ride the pain on the ghost train

The ghost train!

Wheels turning, tracks burning  
Screams of pain on the ghost train  
Dark nightmare, stuck in there  
Ride the pain on the ghost train

(Ride the ghost train)  
On the ghost, on the ghost train

Wheels turning, tracks burning  
Screams of pain on the ghost train  
Dark nightmare, stuck in there  
Ride the pain on the ghost train
