

**Grrr!**

**Lordi**

I tried to flee, I tried to run  
You made me feel like I'm under the gun  
I told you please, I told you no  
You're not gonna like how this is going to go

It's too late for me to get away  
I'm in too deep, now there's a price to pay  
Primordial instincts are kicking in  
Been pushed too far and now no one wins

You make an animal of me  
And you make my senses crazy  
You make an animal of me  
You make me go lose control

You make me go Grrr!

You try to flee, you try to run  
A part of me thinks this is gonna be fun  
I'll throw you in the Sarlacc's pit  
Now I bet you have a bad feeling 'bout this

It's too late for you to get away  
You woke the beast, now there's a price to pay  
Primordial instincts are kicking in  
And if I lose I'll rip off your limbs

You make an animal of me  
And you make my senses crazy  
You make an animal of me  
You make me go lose control

You make me go Grrr!

You asked for it  
I'm gonna fly the Falcon  
And I'll see it through

You asked for it and  
Now I'm gonna get  
All Wookie on you!

Primordial instincts are kicking in  
Been pushed too far and now no one wins

You make an animal of me  
You make my senses crazy  
You make an animal of me  
You make me go lose control

You make an animal of me  
You make my senses crazy  
You make an animal of me  
You make me go lose control

You make me go Grrr!  
Aow, you make me go Grrr!

Ooh, you make me go Grrr!  
Yeah, you make me go Grrr!  
You make me go Grrr!
