

## Hot & Satanned

Lordi

She was the type they pushed around  
All her short life they put her down  
She answered to repulsive like a name  
No-one's for sure just when she died  
Coroner said she's putrified  
"Ritual Suicide" C.O.D. claimed

They called her fat and ugly  
The devil made her lovely

She's back from the dead  
hot and satanned  
So now who's laughing  
She's back from the dead  
hot and satanned  
Her whips are lashing

In the school halls they all make way

All of her tormentors will pay  
Footsteps she leaves behind burst into flames  
Now no-one dares to say anything  
Those god damn bitches want to scream  
'Cause she's the ultimate homecoming queen

Now all their heads are turning  
All those damn hoes are burning

She's smoking, she's smoking  
Came back from the grave hot and satanned  
Reborn in the flames hot and satanned
