

# Humanimal

Lordi

Something's happening by moonlight  
By day you're civilized  
But we both know that's a lie  
In the night your blood is boiling  
Face this reality  
You rip meat with your teeth

Don't put faith in evolution  
Oh, no, you won't  
Ever find a true solution

Tear apart the human heart  
The primal part is why it's beating  
There's a beast alive inside  
Humanimal  
Tear apart the human heart  
A carnivore is right there waiting  
There's a beast alive inside  
Humanimal, Humanimal

Say a prayer to ward off demons  
Belief won't get you far  
'Cause we both know who you are  
Instinct moves you in the twilight  
You are the thing they fear  
They deny that you are here

Don't put faith in evolution  
Oh, no, you won't  
Ever find a true solution

Tear apart the human heart  
The primal part is why it's beating  
There's a beast alive inside  
Humanimal  
Tear apart the human heart  
A carnivore is right there waiting  
There's a beast alive inside  
Humanimal, Humanimal

Tear apart the human heart  
The primal part is why it's beating  
There's a beast alive inside  
Humanimal  
Tear apart the human heart  
A carnivore is right there waiting  
There's a beast alive inside  
Humanimal, Humanimal
