

Hurricane of the Slain

Lordi

Been in death for centuries
Froze in anxiety
To fulfill my destiny
Soon will be within reach

I'm a Phoenix, let me arise
All I want is to be alive

Death unchain me
The flaming rain
Lurking bane
I'm the hurricane
Of the slain
Preordained

The moon demon, vile am I
Come to life once more
I'm the beast who will survive
The rites that mortals abhor

I'm a Phoenix, let me arise
All I want is to be alive

Death unchain me
The flaming rain
Lurking bane
I'm the hurricane
Of the slain
Preordained

Stuck in your oblivion
Preparing not to be scared
But one of you is my Ophidian
I am already there

I'm a Phoenix, now I'll arise!
