

I Dug a Hole in the Yard for You

Lordi

Here's the story of you and me
Summer sparks and we knew it was meant to be
Something changed in your heart with the turning leaves

November cold when you tried to go
Blaming me, I'm a monster that you don't know
New Year's Eve and I gave you a ring of gold

For better or for worse (You promised, promised)
The worse is gonna hurt (Know it, know it)
Lay you down under the dirt
My love is strong and it will find a way
You're saying stop but I don't got all day

I dug a hole in the yard for you
So you won't break my heart
I dug a hole in the yard for you
Just to know where you are
I dug a hole in the yard for you

Soon it was March we were like a dream
And then in May spring bouquets for still loving me
Come July and it's our anniversary

Your family is annoying me
I tell them all that I feel like you're dead to me
Our love shall remain in secrecy

For better or for worse (You promised, promised)
The worse is gonna hurt (Know it, know it)
Lay you down under the dirt
My love is strong and it will find a way
You're saying stop but I don't got all day

I dug a hole in the yard for you
So you won't break my heart
I dug a hole in the yard for you
Just to know where you are
I dug a hole in the yard for you

It was All Hallows Eve, the stink of earth assaulted me
I turned to see your sunken eyes stare back at me
And I screamed

I dug a hole in the yard for you
So you won't break my heart
I dug a hole in the yard for you
Just to know where you are
I dug a hole in the yard for you
So you won't break my heart
I dug a hole in the yard for you
Just to know where you are
I dug a hole in the yard for you
