

# Inhumanoid

Lordi

The master of Darkness is on his throne  
Pondering how best to keep up with the times  
Enough with rotting skin and fragile bone  
My army needs to be a digital abzyme

Demon biology  
Meets with technology  
Bow down  
Right now  
For innovation so profound

Inhumanoid  
Electrical undead  
Engineered  
To destroy  
Godzillandroid  
Defy the will of God  
Steel and bones  
Blood and Oil  
Inhumanoid

Enter robotic troops  
Of Living Dead  
They march Beach Boulevard  
As people run and scream  
An OS Overwrite kicks in instead  
Now they're saying  
We want to live  
The California Dream

Demon biology  
Meets with technology  
Bow down  
Right now  
For innovation so profound

Inhumanoid  
Electrical undead  
Engineered  
To destroy  
Godzillandroid  
Defy the will of God  
Steel and bones  
Blood and Oil  
Inhumanoid
