

# Killusion

Lordi

There's no pain, there's no fear  
There's no authorities higher than me  
There's no confusion, there's no regrets  
No guilty sins that I hope you forget

You just don't get it, you just can't get it  
When you ain't ready you just ain't ready

In my mind, a mind within a mind  
My world within delusion  
A fantasy within reality  
My kingdom of Killusion

There's no will, there's no way  
There's only what I need you to believe  
There's no solution, there's no relief  
No getting in but you can't ever win

You just don't get it, you just can't get it  
When you ain't ready you just ain't ready

In my mind, a mind within a mind  
My world within delusion  
A fantasy within reality  
My kingdom of Killusion

In my mind, a mind within a mind  
My world within delusion  
A fantasy within reality  
My kingdom of Killusion  
In my mind, a mind within a mind  
My world within delusion  
A fantasy within reality  
My kingdom of Killusion
