Phantom Lady

Lordi

Streetlights thigh highs, red lips say danger
She tries hard to be outta sight
She's tight, well all right, she goes "Hey stranger
You looking for a party tonight?

And she'll be gone by the morning
And she won't leave no trace
She's cast out of the human race

Phantom Lady of the night...

She's hot, it's not that happy
But it is an ending
She sucks his life out and
Shuts his eyes

And she'll be gone by the morning
And she won't leave no trace
She's cast out of the human race

Phantom Lady of the night...

Her phantom reign came
To an end when she met me
'cause I am the demon supreme

Now listen bitch this will
Suck for you in a different way!
Phantom Lady of the night...
