

# Scream Demon

Lordi

I don't know much but this ain't love  
Thought what we had would last forever  
Fell so far, hit the ground hard, there's no ever after  
You raked the muck, my name is mud  
Gonna show you who you've angered  
Bided my time, and here we are  
I'm gonna get me some closure

Yeah, I caught you off guard  
I'll rip out your beating heart  
You'll roast until you're charred

Scream demon, scream demon, scream demon girl  
Scream demon, scream demon, scream demon burn  
Scream on, scream on, demon girl  
Scream on, scream on, demon girl

Payback's a bitch, ain't it bitch?  
Conjured you, nothing can save you  
Pentagram holds you fast  
Ran out of your voodoo  
You are a witch, you shake and twitch  
Beg and plead, I'm deaf to your raving  
Your acting's great, your human face  
Is almost convincing

Yeah, I caught you off guard  
I'll rip out your beating heart  
You'll roast until you're charred

Scream demon, scream demon, scream demon girl  
Scream demon, scream demon, scream demon burn  
Scream on, scream on, demon girl  
Scream on, scream on, demon girl  
I love the way you burn

I don't know much but this ain't love  
I'm gonna get me some

Scream demon, scream demon, scream demon girl  
Scream demon, scream demon, scream demon burn  
Scream on, scream on, demon girl  
Scream on, scream on, demon girl  
Scream demon, scream demon, scream demon girl  
Scream demon, scream demon, scream demon burn  
Scream on, scream on, demon girl  
Scream on, scream on, demon girl
