

The United Rocking Dead

Lordi

You hear the rumble off in the distance
Louder than thunder, extreme, absurd
Your shock and overcome resistance
Crowned the elite of the underworld

We are here!
And what you see is what you get
Play by fear
We're the united rocking dead

There's no escaping our domination
Bow to our will or you we will break
A lucky few turned into our minions
Vow to maintain order in our wake

We're here to subjugate
Demons that decimate
A monster war machine
Drowning out screams

We are here!
And what you see is what you get
Play my fear
We're the united rocking dead

We are here!
And what you see is what you get
Play my fear
We're the united rocking dead

We are here!
And what you see is what you get
Play my fear
We're the united rocking dead
