

# Vampyro Fang Club

Lordi

Silhouettes of bats  
Are crossing the moon  
The sun is setting  
And it's blood red painting doom  
Coming soon  
A torch is lit  
To put some bright in the dark  
It won't chase away the fear that's in the heart  
There is no spark

Anticipation is about to explode  
Initiation is a bite  
Down on the throat  
Let's go

Vampyro Fang Club  
For the ones who wanna stay  
Forever young  
For the children of the night  
Who stay out of the light  
Vampyro Fang Club  
If you try to leave  
You will be turned to dust  
But you'll have eternal life  
Where love never dies

With morning sunrise  
You have stayed up all night  
You're made of darkness  
And you just can't stand the light  
Well that's all right  
They don't know what  
They don't know what they think  
You know by now you are  
More than meets the eye  
You will never drink... Wine

Anticipation is about to explode  
Initiation is a bite  
Down on the throat  
Let's go

Vampyro Fang Club  
For the ones who wanna stay  
Forever young  
For the children of the night  
Who stay out of the light  
Vampyro Fang Club  
If you try to leave  
You will be turned to dust  
But you'll have eternal life  
Where love never dies

When the night is done  
And the sun comes out  
We will enter our coffins to lie  
We will sleep undead sleep

Till the stakes hammer down  
We won't ever realize when we die

Vampyro Fang Club  
For the ones who wanna stay  
Forever young  
For the children of the night  
Who stay out of the light  
Vampyro Fang Club  
If you try to leave  
You will be turned to dust  
But you'll have eternal life  
Where love never dies
