

## Fire Blue

Loreen

There to live  
There for me  
Reveal yourself be at ease  
I'll be your fire blue burn for you everywhere  
When blue turn to red  
Then I will put it to rest  
Maybe we will not be here

I'm gonna stay with you until I fall apart  
I'll be your fire blue  
Take me to the place I love

There is red an blue  
Fire on the moon  
Colors of snow come in June  
Paint me a picture of you and I'll save it till then  
When blue turn to red and I will never know  
Maybe we will not be here

I'm gonna stay with you until I fall apart  
I'll be your fire blue  
Take me to the place I love  
If you wanna stay with me  
Take me to the place I love  
Show me your fire blue  
Don't ever let me fall apart...

(I'm gonna stay with you until I fall apart  
I'll be your fire blue)...

I'm gonna stay with you until I fall apart  
I'll be your fire blue  
Don't ever let me fall apart
