Loreen

(Nirvana)

I close my eyes and it's like nirvana
When you're near, baby, I just wanna-

You got my heartbeat racing, oh
Baby, you're my black coffee, yeah, yeah, yeah
Moving me sideways, fast and slow
Feeling the rush upon me, yeah, yeah, yeah
Crystal on your body, dripping down me, oh, yeah

Close my eyes and it's like nirvana
When you're near, baby, I just wanna
Feel my body melting into you, you, you, you
Feel my body melting into you, you, you
I close my eyes and it's like nirvana
Just a touch and I know I'm gonna
Feel my body melting into you, you, you, you
Feel my body melting into you, you, you, you

You're getting underneath my skin
And getting me high again, oh, yeah, yeah, yeah
Now I don't know where I begin
And I don't know where you end, oh, yeah, yeah, yeah

Crystal on your body, dripping down me, oh, yeah

Close my eyes and it's like nirvana
When you're near, baby, I just wanna
Feel my body melting into you, you, you, you
Feel my body melting into you, you, you
I close my eyes and it's like nirvana
Just a touch and I know I'm gonna
Feel my body melting into you, you, you, you
Feel my body melting into you, you, you, you
Feel my body melting into you

I close my eyes and it's like nirvana
Just a touch and I know I'm gonna
Feel my body melting into you, you, you, you
Feel my body melting into you, you, you, you
