

# Ocean Away

Loreen

Ska vi höja tracket lite?

Rise above, above the noise in my head  
Yeah, I talk so loud  
So loud I can't hear myself  
Yeah call my name, put me in order  
The way you keep, I play the fool yes

Fly away, fly away, an ocean away  
Where I won't let you hurt me again  
Far away, far away, an ocean away  
Where I won't let you hurt me again, again

Never coming back  
Never coming back  
Never coming back

I am the sun, I chase the darkness away  
I own my heart, the fire burns in my veins  
This is the way  
I'm coming over, yeah  
Move out my way, I am a solider

Fly away, fly away, an ocean away  
Where I won't let you hurt me again  
Far away, far away, an ocean away  
Where I won't let you hurt me again, again

Never coming back  
Never coming back  
Never coming back  
Fly away, fly away, an ocean away  
Where I won't let you hurt me again

I will love you, yeah, yeah, yeah, yeah  
I'm relying on the power of the way  
How I try, yeah, yeah, yeah, yeah  
How I stumble, how I fall along the way, along the way  
How I stumble, how I fall along the way  
How I stumble, how I fall along the way

Fly away, fly away, an ocean away  
Where I won't let you hurt me again  
Far away, far away, an ocean away  
Where I won't let you hurt me again, again

Far away, far away, an ocean away
