True Love

Loreen

I've felt happiness, I've felt pain
I've let jealousy make my heart break
I've been the saviour and I've been saved
But for you, I'd do it all again

Now my heart's outside my body
Hold it in your hands and say you've got me
Tell me, is it true love?
'Cause it's all for you, love
There's a universe above me
But it's only you who truly got me
Tell me, is it true love?
'Cause it's all for you, love

I had everything and I let it fall
I jumped head first in the abyss, felt nothing at all
I've been the saviour and I've been saved
But for you, I'd do it all again

Now my heart's outside my body
Hold it in your hands and say you've got me
Tell me, is it true love?
'Cause it's all for you, love
There's a universe above me
But it's only you who truly got me
Tell me, is it true love?
'Cause it's all for you, love

Through the fire, falling rain
Darkest nights, light my way
'Cause, baby, this is true love
'Cause it's all for you, love
Through the fire, falling rain
Darkest nights, light my way
'Cause, baby, this is true love
'Cause it's all for you, love

I've felt happiness
'Cause, baby, this is true love
I've felt pain

Through the fire, falling rain
Darkest nights, light my way
'Cause, baby, this is true love
'Cause it's all for you, love

Holding it in
Tell me, is it true?
'Cause it's all for you
There's a universe above me
Yeah
True love
'Cause it's all for you
