

## Warning Signs

Loreen

I got distraction running through my veins  
All I ever do, do is run away  
This chain reaction is all I ever known  
I let someone in and they let me go

Now I found you, what do I do?

I'm wide awake and I can't believe your body's  
Right next to me, I'm ignoring all the warning  
Signs when I think, you're the trouble, boy, I want it  
I'm... ignoring all the warning signs

Ignoring all the warning signs  
Ignoring all the warning-

You got your hands all tangled up in mine  
I believe in faith, I believe in signs  
I take my chances even though I know  
I let someone in and they let me go

Now I found you, what do I do?

I'm wide awake and I can't believe your body's  
Right next to me, I'm ignoring all the warning  
Signs when I think, you're the trouble, boy, I want it  
I'm... ignoring all the warning signs

Ignoring all the warning signs  
Ignoring all the warning signs  
Ignoring all the warning signs
