

Weapons

Loreen

Focus

You're feeling blurry, feeling hopeless
Coping
But you could crush in just a moment
So lonely, but I see you
But I see you

You're here, you're now, you're a weapon
Oh
Go time, all rise, go n' get 'em
Oh
Let it burn, let it hurt like heaven
Could be gone like, in a second
You're here, you're now, you're a weapon

People

The city's full of perfect people
Running
All for the fear of feeling something
So lonely, but I see you
But I see you

You're here, you're now, you're a weapon
Oh
Go time, all rise, go n' get 'em
Oh
Let it burn, let it hurt like heaven
Could be gone like, in a second
You're here, you're now, you're a weapon

You know you're a weapon
Bang, bang, bang
Get up and go get 'em
Bang, bang, bang
Take it higher than heaven
Bang, bang, bang

You know you're a weapon
Bang, bang, bang
You know you're a weapon
Bang, bang, bang
Get up and go get 'em
Bang, bang, bang
Take it higher than heaven
Bang, bang, bang

You know you're a weapon
Bang, bang, bang

You're here, you're now, you're a weapon
Oh
Go time, all rise, go n' get 'em
Oh
Let it burn, let it hurt like heaven
Could be gone like, in a second
You're here, you're now, you're a weapon
