

Where Do We Go From Here

Loreen

I throw stones in the ocean
Sing to the sea
Looking for answers
You and for me
Where are we going?
What will we be?
Fill me with faith
I want to believe, want to believe

Where do we go from here?
Where do we go from here?
Give me time, give me grace, love me blind, run away
Get me high, say my name, where do we go from here?

I stood next to a mountain
Stood there and screamed
Let it all go
I'm finally free
Don't need forgiveness
Don't need relief
We are the same, ah
I want to believe, want to believe

Where do we go from here?
Where do we go from here?
Give me time, give me grace, love me blind, run away
Get me high, say my name, where do we go from here?

Give me time, give me grace, love me blind, run away
Give me eyes, say my name, where do we go from here?

From here, yeah, yeah
Where do we go from here?
Where do we go from here?
Where do we go from here?
