

Until Hell Freezes Over

Loren Gray

I don't even get to dress up, just to impress you
You couldn't care less 'cause you already knew
Now we're past us fading, you make it painless
I love the way you're pulling and I'm falling
(And I'm falling...)

I can feel you burning in my soul
I don't wanna fight it anymore
I don't wanna be alone
I hope I get to hold you
Until hell freezes over

Until hell freezes over
Until hell freezes over

I was never one for hoping, killed all emotion
I couldn't care less 'til you pulled me out of the rain
'Cause nobody noticed, I felt so hopeless
Now that I've made it out, it's clear now

I can feel you burning in my soul
I don't wanna fight it anymore
I don't wanna be alone
I hope I get to hold you
Until hell freezes over

Until hell freezes over
Until hell freezes over
Until hell freezes over
(I hope I get to hold you)
Until hell freezes over

I don't wanna be alone
(Until hell freezes over)
