

Alone With You

Loretta Lynn

How I love to be around you
When the lonely night surrounds you
How I love to be alone with you
How I love to have the power to read your mind
How I love to be alone with you
Just to be with you one night you and me alone
Kiss your lips and hold you tight
Have you for my own
This would be a joy unending, could be a real beginning
How I love to be alone with you

How I'd love to be around you
When the lonely night surrounds you
How I love to be alone with you
If I only knew for certain
I'd cut out all my flirtin'
How I love to be alone with you
Just to be with you one night...
How I love to be alone with you
How I love to be alone with you
