

Everybody's Lookin' for Somebody New

Loretta Lynn

Everybody's lookin' for somebody new
Yea, listenin' to the shadows with who knows who
Trying to find a feeling I got with you
Everybody's lookin' for somebody new

Everywhere you go, there's hearts being broken
And floors gettin' walked all night long
But this feeling we share just keeps on growing
Because we know where our love belongs

Everybody's lookin' for somebody new
Yea, listenin' to the shadows with who knows who
Trying to find a feeling I got with you
Everybody's lookin' for somebody new

Down at work, the girls all tell stories
About who they loved on last night
If they're new to love, they're so good at givin'
Their lips would be sealed up tight

Everybody's lookin' for somebody new
Yea, listenin' to the shadows with who knows who
Trying to find a feeling I got with you
Now everybody's lookin' for somebody new

Honey, you got the touch, you got the magic
To make every night brand-new
When I need love and tenderness
The only one I need is you

Everybody's lookin' for somebody new
Yea, listenin' to the shadows with who knows who
Trying to find a feeling that I got with you
Everybody's lookin' for somebody new

Everybody's lookin' for somebody new
Yea, listenin' to the shadows with who knows who
Trying to find a feeling I got with you
Now everybody's lookin' for somebody new
