

I Should Be Over You By Now

Loretta Lynn

I've had time to learn to live again
And time enough for broken minds to mend
Ah but time alone is not enough somehow
'Cause I should be over you by now

I should be over you by now
I tried to love you more than I knew how
Just as our forever's had its end
Oh when will getting over you begin?
'Cause I should be over you by now

I have walked the road of my mistakes
Stumbling through the memories we made
Feeling so much hurt will never heal
Or could it be you're feeling what I feel?

'Cause I should be over you by now
I tried to love you more than I knew how
Just as our forever's had its end
Oh when will getting over you begin?
'Cause I should be over you by now
