

# I've Been Lonely So Long

Loretta Lynn

A lifetime of loving is what I've dreamed of  
I'm a [?] whose never been loved  
And I just can't believe I found someone like you  
With time on my side, all of my dreams can't come true

But I've been so lonely so long  
And I can't be wrong  
So give me some time to believe this is real  
I've been so lonely so long  
And I carried you on  
So give me some time to know what I feel

I can't help believing when you whispered my name  
'Cause there's something about it that drives me insane  
Oh the way that you touch me only makes me feel fine  
I can see in your eyes you've got trouble on your mind

But I've been so lonely so long  
And I can't be wrong  
So give me some time to believe this is real  
I've been so lonely so long  
And I carried you on  
So give me some time to know what I feel

I've been lonely so long
