

Love The Day Away

Loretta Lynn

Hello, good morning
Honey, how are you?
I just got up and took a look at you
Don't go away with something we've got to do
Put in a call down to the factory
Just tell my boss there's an emergency
Because it's true, me and you
We're gonna love the day away

We'll tear the telephone right off the wall
We won't be taking anybody's call
Today is set aside for making love and that's all
Who cares if someone's knockin' at the door?
I don't intend on waiting anymore
Stay in bed, like I said
We're gonna love the day away

We'll get up after breakfast, that's okay
Who needs to eat all the time anyway?
The only appetite I have today
Is for your sweet and tender love

Pull down the shades and let's enjoy the view
Today's a day that's been long overdue
Love me and then love me again
We're gonna love the day away

We'll get up after supper, that's okay
Who needs to eat all the time anyway?
The only appetite I have today
Is for your sweet and tender love

Hello, good evening
Darling, how you feel?
But, boy, before we fall asleep
Let's make a deal
Me and you, tomorrow too
We're gonna love the day away
We're gonna love the day away
We're gonna love the day away
