

Starlight Starbright

Loretta Lynn

We started out with moonlight walks
Underneath magnolia trees
And all at once, he stopped talking
Something took a hold of me

I said, starlight, starbright
Please don't steer me wrong tonight
'Cause in his arms, it feels so right
Heaven help the victim of starlight

Feels so good, it's gotten me really
That man can take my breath away
It must be magic that I'm feeling
Can't believe what I'm about to say

I said, starlight, starbright
Please don't steer me wrong tonight
'Cause in his arms, it feels so right
Heaven help the victim of starlight

Starlight, starbright
Please don't steer me wrong tonight
'Cause in his arms, it feels so right
Heaven help the victim of starlight
