

# Stop the Clock

Loretta Lynn

Been living for this moment, it's all I ever wanted  
You're saying all the things I ever wanted you to say  
But I heard that nothing lasts forever  
And I'm so afraid you let me slip away

Wish we could stop the clock between the tick and tock  
Don't ever want to give it up  
Why can't we stop the clock, hold on to what we've got?  
You and me suspended here in love

I wish we could capture this feeling in a picture  
And lock it in our hearts to have and hold forevermore  
We could make this moment last a lifetime  
And to know what tomorrow holds in store

Wish we could stop the clock between the tick and tock  
Don't ever want to give it up  
Why can't we stop the clock, hold on to what we've got?  
You and me suspended here in love

Why don't we stop the clock between the tick and tock?  
Don't ever want to give it up  
Why can't we stop the clock, hold on to what we've got?  
You and me suspended here in love
