

Where Love Goes When It's Gone

Loretta Lynn

Searchin' for the place searchin' every face
Tryin' to find somebody to tell me what went wrong
Surely there's a way to love again someday
So I'll keep searchin' for the place where love goes when it's gone

If you listen to my story I only stay a while
I've hurt for him so long I forgotten how to smile
Tonight I need a friend then I'll be movin' on
Searchin' for the place where love goes when it's gone

I don't know where I'm goin' but it's not back where I've been
There's too much to remember and I still remember when
The last time I was with him I walk up all alone
Searchin' for the place where love goes when it's gone

Searchin' for the place searchin' every face
Tryin' to find somebody to tell me what went wrong
Surely there's a way to love again someday
So I'll keep searchin' for the place where love goes when it's gone

Searchin' for the place searchin' every face
Tryin' to find somebody to tell me what went wrong
Surely there's a way to love again someday
So I'll keep searchin' for the place where love goes when it's gone
