

Heart Shaped Bullet Hole

Lori McKenna

Got a heart shaped bullet hole in my chest
Been there ever since you left
Doctor said I need some meds
And I said "no thank you"

Got a heart shaped bullet hole in my chest
Trying to cover it up with my Sunday best
But you can't hide hurt in a yellow dress
It will soak right through

Goodbye is the ammo
Your lips are the gun
And it's like you pulled the trigger
When those words flow off your tongue
I can't stop the bleeding
You sure did have good aim
Gonna leave a big old scar
I'll never be the same

Got a heart shaped bullet hole in my chest
Like I was loving you out in the wild, wild West
Love is so damn dangerous
Guess I'm not bulletproof

Goodbye is the ammo
Your lips are the gun
And it's like you pulled the trigger
When those words flow off your tongue
I can't stop the bleeding
You sure did have good aim
Gonna leave a big old scar
I'll never be the same

Goodbye is the ammo
Your lips are the gun
And it's like you pulled the trigger
When those words flow off your tongue
I can't stop the bleeding
You sure did have good aim
Gonna leave a big old scar
I'll never be the same

Got a heart shaped bullet hole in my chest
Are you lying in some woman's bed?
And I hope that girl take your breath
Leaves a heart shaped bullet hole in your chest
