

# Something About Trains

Lorrie Morgan

There is just something about trains  
Makes me want to run away  
My granddaddy use to say  
Must be something in the vents  
That he knew them too  
There is just something about trains

Sometimes I gotta get up off the ground  
Get lost to get found and be free  
Sometimes my mind goes a while  
Found pick up my feet

There is just something about the sea  
You can't solve its mystery  
I want to swim down where it's deep  
And cure this curiosity  
All I need to know is that I need to go

There is just something about the sea  
Sometimes I gotta get up off the ground

Get lost to get found and be free  
Sometimes my mind goes a while  
Found pick up my feet

Last night I went out for a drive  
A song came on and spoke my line  
I have to pull off to the side  
Not so worry you should cry  
What you never know what the road may hold  
Last night I went out for a ride

Sometimes I gotta get up off the ground  
Get lost to get found and be free  
Sometimes my mind goes a while if I don't  
Found pick up my feet  
There is just something about trains  
Makes me want to run away
