

There I Go

Los Lobos

There I go
Like a leaf that's blown away
So like a child that lost his way
I keep on looking
It's all that I can do

There I go
On down the road that never ends
So like a child that lost a friend
I keep on searching

Why do I go on endlessly
Following the shadow of a dream
Chasing forever so it seems
Down a way that leads to you
It's all I can do

There I go
Once more and over again
So like a bird in the wind
I'm just flying
