

## Smile

Los Lonely Boys

The hours, days that I've seen go by  
Within a still forlorn and weary place  
And I've lived on this side of love for too long  
And now you're here  
You're right on time  
Giving truth to love  
With your presence  
Emitting your light  
Crystal clearly on your face  
I can see  
I see every shade of love  
In those eyes  
And I see miles of happiness it shows  
Baby in your smile  
In your smile  
Oh I see the love  
In your smile  
Oh I see every shade of love  
In those eyes  
And I see miles of happiness it shows  
Baby in your smile  
In your smile  
Oh I see the love  
In your smile  
Oh I see the love  
In your smile
