

Deep Seated

Los Retros

There comes a day you find love
Your heart reacts a way it never does
In the moment you feel complete
Til the day she... day she leaves

Why do these things happen to me
Is it, my fault... I forgot... myself in the link

New day, pancake, could this... really be
Alone with you is a lucid dream
Miracles behind those beautiful eyes
Livin life without a worry in my mind

Love...

Love...

Deep seated love...
