

## Doves

Los Retros

Staying up late in the night  
With you on my mind  
Hoping that you think of me  
You're so special  
And I'm willing to wait for you  
'Cause no one else has me like you

I'll never find someone like this  
No matter how far I look  
No matter which sea I fish  
From the far end of this slow world

True love is really hard to find  
Won't you give this heart a try?  
What more is there left to see?  
With you is where I want to be

I've already made up my mind  
Of what I want to do  
And where I want to be  
Anywhere but away from you  
It must be real nice  
To have you always in my rank  
I will feel complete, so lovely

The day you come around, oh  
I'll be ready to fly  
Just two doves  
We can fly away to be just as one

True love is really hard to find  
Won't you give this heart a try?  
What more is there left to see?  
With you is where I want to be
