Los Retros

Sleep

Take a break from life
Lay and rest your eyes
Doesn't have to be so hard
Many of us take it wrong

Waiting for a loan
Time for things to fix
Fix themselves alone

When you wake
Remember, I'm you're lover forever
Never lose our touch
Because that's all that we have
And it's really not bad
I brought you into this
But now
You love me and I'm glad
Girl I feel the same

Oohh, oohh

So stay with me
I promise you'll be safe
Don't you ever change
I want to make your day

I'll love you from afar
Even love you when you're gone
Just please come back
