

## Nostalgic Vibrations

Los Retros

The sun is making its way to the top  
The moon is waving hello as I sob  
Wish you were here  
To show me, love  
You can tell me anything  
I can be your only one

What's on your mind?  
It's killing me  
Not knowing  
What's the mean of those sweet eyes?  
I really can't feel, feel a thing  
When you're with, only me

Is it wrong being in love with you?  
One kiss will say goodbye to the moon  
(Moon, moon, moon)

What's on your mind?  
I need to know  
I hope you know  
There's no lust for me to show  
Only love

(Love, love, love, love, love  
Love, love, love, love, love  
Love, love, love, love, love)
