Ay

I feel like I'm wasting time  
Stevie Wonder they blind  
Between me, SA and Naghz  
I think we scored on half their guys  
Loose, Loose been a hazard we ride  
Grim Reaper on bikes  
When GG wet up dat yute, he gave me his ting I said "Bro you're kind"  
Sparta winning, they run like chicken  
Ching that spine  
Gorgeous with a bore tongue oh my  
Skeet on her mouth and them boy dere kiss it  
Must be kiddin, big man why  
I don't know nothing bout reason  
Or ropes, try approach I'll probably give man 5  
2 hands on the dot dot, 1 eye closed  
Free JoJo he love rise poles  
We step, we step they dash  
In a flash when that dotty get live-o  
Gyal can't tell me bout kissin'  
Uck and I'm missin she ringing up my phone  
I tell man listen, ching good riddance  
They can't come my zone  
Ay, don't lack when you trap  
I jugg with the tool, splash don't fall in a pool  
Them paigons don't mash it at all  
Bando with puppa and skeng  
That was year 10 wait I made it look cool  
Sweet shot alley got hot, switch up the spot  
Young nigga know how to ball  
Throw it back for a real nigga  
You know that you're nice  
Designer all on you don't ask me the price  
We drink from the bottle, more life  
Ay, I don't know nothing bout ropes  
I'm beefing with cowards they run and they hide  
Pushing in foreigners I caught my right  
Thing on the stash, we don't fist fight  
Ay, mash up their block then were breezing off  
He got heart but his dargie's washed  
The amount of times I've mashed up my hands  
Getting a nine and put it in dots  
They talk on the net they're soft, they talk more time get got  
Your barbies pissed sorry b so what  
Free mizzmac we the frightening blocks
