

Spaceships

Loski

Take a walk in my Diors, you wouldn't last a day
If they step and they don't find you, they gon' spin again
At least I'll be around my brothers if I die today
Get the drop and they goin', there ain't no time to wait
Lost Risky, I'm scarred, it don't feel the same
If you can hear me, I miss you, so can you heal the pain?
Certain nights I don't sleep, I'm in another place
When you go in them trenches, you see a different way

Clean heart, but I got demons hangin' on to me
Lonely, try to keep a cannon just for company
Why do I question your love when you're the one for me?
But fuck them niggas, it's just friends that keep on touchin' me
I'm big ski, best have it on you if you come for me
Ride for me
I wanna know, would you do time for me?
I need a mil' before they free OD, yeah
You said that you will never change on me
I hope that you always gon' stay with me
He got a pole in a dance, that's what he came with
She a opp thot, the only hoes I hit that's basic
I hit a bitch by the day, you can take it
Bro spinning every week, he want a facelift
I'm in Amiri, see it clearly, this ain't Balmain
Diamonds shine bright, big whips like a spaceship
I can't give a ho no attention, she'll think she made it
I can't give a ho no love, she gon' waste it
When I lost my bro, I lost my heart, can you replace it?
This the old me, I don't wanna be famous
Trappin' thirty, where was you at them ages?
Lost my brothers and it left me scared
Niggas get shot, but God keeps on savin'
Keep on chattin'
Free my nigga Supah 'cah he so savage
Youngins keep it on 'em like they Go Go Gadget
Say it's up, then they all go at it
Slide for me
I'll drop a bag on you
Step on 'em, they gon' step on you
And fuck them niggas 'cah they play my tunes

Take a walk in my Diors, you wouldn't last a day
If they step and they don't find you, they gon' spin again
At least I'll be around my brothers if I die today
Get the drop and they goin', there ain't no time to wait
Lost Risky, I'm scarred, it don't feel the same
If you can hear me, I miss you, so can you heal the pain?
Certain nights I don't sleep, I'm in another place
When you go in them trenches, you see a different way
