

All Or Nothing

Lost Frequencies

All or nothing
You know what you're doing, but the clock is ticking
Give it your best and then you're onto something
And keeps on getting closer, closer
All or nothing
Everything's silent and your head just sweating
Something not sure except the way you're heading
You know it's getting closer, closer

If you go all in, you got a lot to lose, my friend
All or nothing
If you say "all in", you don't get to choose again
All or nothing

All or nothing
Take a step forward and you know she's looking
Take a deep breath before you make it happen
Keeps on getting closer, closer

If you go all in, you got a lot to lose, my friend
All or nothing
If you say "all in", you don't get to choose again
All or nothing

All or nothing
If you go all in, you got a lot to lose, my friend
All or nothing
If you say "all in", you don't get to choose again
All or nothing
If you go all in, you got a lot to lose, my friend
All or nothing
If you say "all in", you don't get to choose again
All or nothing
