

# You

## Lost Frequencies

I ain't got nothing but you  
I ain't got nothing but you  
I ain't got nothing but

I don't need to find another  
Cause nobody knows me like you do  
Oh can we take it  
To another level  
I know you spend your nights  
Thinking bout it too

Yeah you know we grew up together  
Broken in this small town  
Tryna make our way out  
And I know you're feeling the pressure  
So let's call this thing out  
You know the truth

I ain't got nothing but you  
Ooooh (you) ooooh  
I ain't got nothing but you  
Ooooh (you) ooooh  
I ain't got nothing but

Look I know, you fear we'll mess this up  
You've been like family  
Since the day I met you  
You can trust this  
Just let your body talk  
It's only natural for us to want to

Yeah you know we grew up together  
Broken in this small town  
Tryna make our way out  
And I know you're feeling the pressure  
So let's call this thing out  
You know the truth

I ain't got nothing but you  
Ooooh (you) ooooh  
I ain't got nothing but you  
Ooooh (you) ooooh  
I ain't got nothing but

There's nobody else  
There's nobody else  
There's nobody else but you  
And I'll always be there  
I'll always be there  
I'll always be there for you

I ain't got nothing but you  
I ain't got nothing but you  
I ain't got nothing but you  
I ain't got nothing but you  
I aint got nothing but

There's nobody else  
There's nobody else  
There's nobody else but you  
And I'll always be there  
I'll always be there  
I'll always be there for you
