

Ain't The Same

Lost Kings

I spent the summer under covers with another
Looked just like you
Every weekend smoking weed
Drunk in the deep end of the pool
I spend every night in L.A. trying not to call out your name
Spent the summer under covers with another
But it ain't the same

It's late
But I figured I'd call you
I put the Pac record on
Got me thinkin 'bout that day
Couldn't keep my hands off you
Even as we hittin' that late night drive-through

Ooh-oh-oh, I need you, I need you like
Ooh-oh-oh, I see you, I see you
And every single place and every single face
I had to get away so

I spent the summer under covers with another
Looked just like you
Every weekend smoking weed
Drunk in the deep end of the pool
I spend every night in L.A. trying not to call out your name
Spent the summer under covers with another
But it ain't the same

It's late
But I figured I'd text you
It's been a while
Hit me, let me know if you're okay
Who you lying there next to?
You stay forever on my mind like a tattoo

Ooh-oh-oh, I need you, I need you like
Ooh-oh-oh, I see you, I see you
And every single place and every single face
I had to get away

I spent the summer under covers with another
Looked just like you
Every weekend smoking weed
Drunk in the deep end of the pool
I spend every night in L.A. trying not to call out your name
Spent the summer under covers with another
But it ain't the same
But it ain't the same
But it ain't the same
