

Oops (I'm Sorry)

Lost Kings

No, I never meant to break your heart
But you kind of knew I always would
Said you always wanna be a star
Now you're the saddest girl in Hollywood

Took a hit 'cause I can't say I miss you
But I miss you now, -ow
Apologize for what I got you into
But it's too late now, -ow

Hate me, hate me
Hate me, if you need to
Sorry, sorry
I'm sorry now

No, I never meant to break your heart
But you kind of knew I always would
Said you always wanna be a star
Now you're the saddest girl in Hollywood
I tried to warn ya, I'm no good for ya
I tried to warn ya, know I did
No, I never meant to break your heart
Oops

Now you're the saddest girl in Hollywood

Didn't wanna believe when I met you
I would let you down, -own
Apologize for what I got you into
But it's too late now

Hate me, don't fight me
Replay me, if you need to
Sorry, I'm sorry
So sorry now

No, I never meant to break your heart
But you kind of knew I always would
Said you always wanna be a star
Now you're the saddest girl in Hollywood
I tried to warn ya, I'm no good for ya
I tried to warn ya, know I did
No, I never meant to break your heart
Oops

You kept on dreaming for that moment but not tonight
You told me this is what you wanted but that's a lie
You said that you were on your way, that's all I heard you say
But when the lights come out girl, you just froze up on that stage
You kept on waiting for that moment and missed you time

No, I never meant to break your heart
But you kind of knew I always would
Said you always wanna be a star
Now you're the saddest girl in Hollywood
I tried to warn ya, I'm no good for ya
I tried to warn ya, know I did

No, I never meant to break your heart
Oops
