

## Something Good

Lost Kings

Know I want it more than ever  
And now I got you on the tip of my tongue  
All you got through the windows  
Like a breeze that I've been waiting so long

I feel something good holding on to me  
You took me so high, below me I don't see

You got me begging you for more, more, baby  
Come on now, don't be shy  
Don't hold it back tonight  
More, more, baby  
Come on now, don't be shy  
Don't hold it back tonight

Don't hold it back tonight, don't hold it back tonight  
Don't hold it back tonight, don't hold it back tonight

Don't know what happened to the old me  
But I couldn't give a damn what I'm on  
Can't stop dancing, don't try to tell me  
But this new shit got me rocking so strong

I feel something good holding on to me  
You took me so high, below me I don't see

You got me begging you for more, more, baby  
Come on now, don't be shy  
Don't hold it back tonight  
More, more, baby  
Come on now, don't be shy  
Don't hold it back tonight

Lucky for me, got no tricks up your sleeve  
Just that re-lifted pickup, that smooth as no hiccups  
That gifted release spread through the streets  
You know what I mean

I feel something good holding on to me  
You took me so high, below me I don't see

You got me begging you for more, more, baby  
Come on now, don't be shy  
Don't hold it back tonight  
More, more, baby  
Come on now, don't be shy  
Don't hold it back tonight
