

# Under The Influence

Lost Kings

Why does every conversation feel like I need to explain all my situations?  
I'm the type to overdose on something, tryna lift me up like my medication  
Swear I'm bad for my health, I can't save myself  
In the mirror all I see is somebody else  
Yeah, I'm like thirty stories high at twenty-  
five coming down in the elevator

But she's in my head  
Talking me down from the edge  
Bringing me back from the dead  
She's the one I won't ever regret

I don't drink and drive but I run the lights  
Every fucking night 'cause I love you  
I'm out my mind when you in my life  
Call it "LUI" 'cause I love you, yeah  
We're loving under the influence, aye  
Loving under the influence  
Yeah, I'm out my mind when you in my life  
Call it "LUI" 'cause I love you  
I love you  
I love you

You bring me up again  
You said I was Heaven-sent  
Hate being the one that'll drag you through hell again  
You bring out the best in me  
But I'll be the death of me  
Every time

'Cause she's in my head  
Talking me down from the edge  
Bringing me back from the dead  
She's the one I won't ever regret

I don't drink and drive but I run the lights  
Every fucking night 'cause I love you  
I'm out my mind when you in my life  
Call it "LUI" 'cause I love you, yeah  
We're loving under the influence, aye  
Loving under the influence  
Yeah, I'm out my mind when you in my life  
Call it "LUI" 'cause I love you  
I love you  
I love you  
I love you  
I love you

I don't drink and drive but I run the lights  
Every fucking night 'cause I love you  
I'm out my mind when you in my life  
Call it "LUI"  
'Cause I love you
