

Into Eternity

Lost Society

Disconnected
I'm separated
From all I have ever known
My reflection
Will fade to nothing
I'm holding on until it's gone

I need to breathe in
I need to fight my sins
And wash away what I've become
Pull me closer
Out of the water
Before I will drown, I will drown

We came so far just to throw it all away
When did we fall when did we start to stray
We lost our hope and our dreams died today
We won't get far until we fade away
Into eternity

Towards the shadows
To be forgotten
But never to be forgiven
Pull me closer
Out of the water
Before I will drown

We came so far just to throw it all away
When did we fall when did we start to stray
We lost our hope, and our dreams died today
We won't get far until we fade away
Into eternity

We came so far just to throw it all away
When did we fall when did we start to stray
We lost our hope and our dreams died today
We won't get far until we fade away
Into eternity

We need to die just to breathe again
We're feeling too numb to feel anything
We need to die just to breathe again
We're feeling too numb to feel anything
