

Outbreak (No Rest For The Sickest)

Lost Society

I will burn through the street
Like a flame with a heartbeat
Flesh from the bone
No way to atone
I'm alive deep within
Crawling under your skin

This ain't survival of the fittest
It's the trial of the sickest

(Infected)
Like a fever running
(Through your veins)
You're just another (casualty)

No, this ain't survival of the fittest
It's the trial of the sickest

Outbreak!
We're coming in like the doomsday
Don't test me
Outbreak
I'm breaking down every barricade
Like the motherfuckin' outbreak

There ain't no rest for the sickest
And this is an outbreak
There ain't no rest for the sickest
No, no

Spreading like a disease
Rotting deep into tragedy
War underground, put up to bring down
Enough is enough
Show me what you're made of

This ain't survival of the fittest
It's the trial of the sickest

Outbreak!
We're coming in like the doomsday
Don't test me
Outbreak
I'm breaking down every barricade
Like the motherfuckin' outbreak

There ain't no rest for the sickest
(And this is an outbreak)
There ain't no rest for the sickest

I will burn through the street
Like a flame with a heartbeat
Flesh from the bone
No way to atone
I will burn
I will burn!

This ain't survival of the fittest
It's the trial of the sickest

Outbreak! (Outbreak)
We're coming in like the doomsday
Don't test me (Don't test me)
Outbreak (Outbreak)
I'm breaking down every barricade
Like the motherfuckin' outbreak

There ain't no rest for the sickest
And this is an outbreak
There ain't no rest for the sickest
This is a motherfuckin' outbreak
There ain't no rest for the sickest
This is a motherfuckin' outbreak
There ain't no rest for the sickest
For the motherfuckin' sickest
There ain't no rest for the sickest
No, this is a motherfuckin' outbreak!
