

# Suffocating

Lost Society

There's something inside me that I  
Know it's within, it keeps on spreading  
I'll try to hold on 'til it's gone  
But if I can't, forgive me  
I don't know my name or my age  
But I'm trying, I swear I'm trying  
My heart feels so cold and so frail  
Only death can heal me

Bleeding out 'til I'm numb on the inside  
And it feels like I, I can't breathe

I'm suffocating  
Is life worth saving when I  
Use every single inch of me  
To end this misery  
The air is pure but I'm suffocating

I love the taste of my own blood  
It reminds me, my heart's still beating  
'Cause I'm a disease with no cure  
And it's never ending  
This pain feels more real than I do  
Something so pure and something so therapeutic  
Calling my name through my scars  
I'm falling in love with falling apart

Bleeding out 'til I'm numb on the inside  
Cause it feels like I, I can't breathe

I'm suffocating  
Is life worth saving when I  
Use every single inch of me  
To end this misery  
The air is pure but I'm suffocating

Death please heal this broken heart  
Before I fall apart  
Please heal what I could not  
Now watch me fall apart

Death please heal this broken heart  
Before I fall apart  
Please heal what I could not  
'Cause I'm

Bleeding out 'til I'm numb on the inside  
And it feels like I, I can't breathe

I'm suffocating  
Is life worth saving when I  
Use every single inch of me  
To end this misery  
The air is pure but I'm suffocating
