

# Underneath

Lost Society

Do you want to die tonight  
Do you want to walk with me  
Do you want to start a fight  
Just tell me

Do you want to burn it all  
'Til there's nothing left to burn no more  
Who cares at all

More like an inhuman attraction  
Oh you make me feel so alive  
'Cause no one ever taught me to feel this  
No one ever taught me to feel  
But give me one more fix and maybe then I'll give a shit

Oh, you taste so bittersweet  
Take me underneath your skin  
The pressure's more than I can take  
So inject me underneath

Do you feel me in your veins  
Do you feel safe with me  
We have a way of easing pain  
By inflicting it

So burn it all  
'Til there's nothing left to burn no more

'Cause no one ever taught me to feel this  
No one ever taught me to feel  
But give me one more fix and maybe then I'll give a shit

Oh, you taste so bittersweet  
Take me underneath your skin  
The pressure's more than I can take  
So inject me underneath  
Inject me underneath

Oh, you taste so bittersweet

Oh, you taste so bittersweet  
Take me underneath your skin  
The pressure's more than I can take  
So inject me underneath

You taste so bittersweet  
Inject me underneath  
The pressure's more than I can take  
So inject me underneath
