

# Malediction

Lost Soul

To the New Light!  
Guided by darkness  
sons of luciferian fire  
Blacker than blackness  
Where blissful silence  
For those who can hear

What is Below, is Below  
Shall stay behind  
Let us drink this filthy life  
From the chalice of malediction

Unholy ways on which we stride  
Unholy waters in which we drown

The Fiery Serpent wreathes in my bowels  
Deadly cure I inject  
To be like they are, against them  
Only king can be a beggar  
Never inversely

And the flesh became a word  
Here are our voices of hatred  
Won't tolerate the pride  
Drawled from the sources of ignorance

Forbidden shall be forbidden  
Covered shall be covered
